

Annual Rates by Plan Announced

Based on the results of recent annual actuarial valuations of FPPA Plans, the Board of Directors approved the following SRA Allocation, Contribution Rates and Benefit Adjustments.

Glossary of Plan Annual Rates

Separate Retirement Account (SRA) is a feature limited to defined benefit plans. In a given year, if more money is paid into a plan than it costs for that plan to be fully funded, then the extra money may be added to an SRA in the member's name.

Contribution rates are the percentage of a member's salary that are contributed to the plan by both the member and their employer. The total rate and how it is split between member and employer is decided by the rules of each plan.

Benefit Adjustments (sometimes referred to as Cost of Living Adjustments or COLAs) are percentage increases to existing retirement benefits to counteract the effects of economic inflation. They are determined by the FPPA Board of Directors. The Board's decision was based on the amount of benefit increase the plan could sustain based on the contributions to the plan and keeping the plan 100% funded. Within the Statewide plans, those who retired on or before October 1, 2016, had their benefit adjustment take effect in their October retirement payment.
